**LONG  
ISLAND**

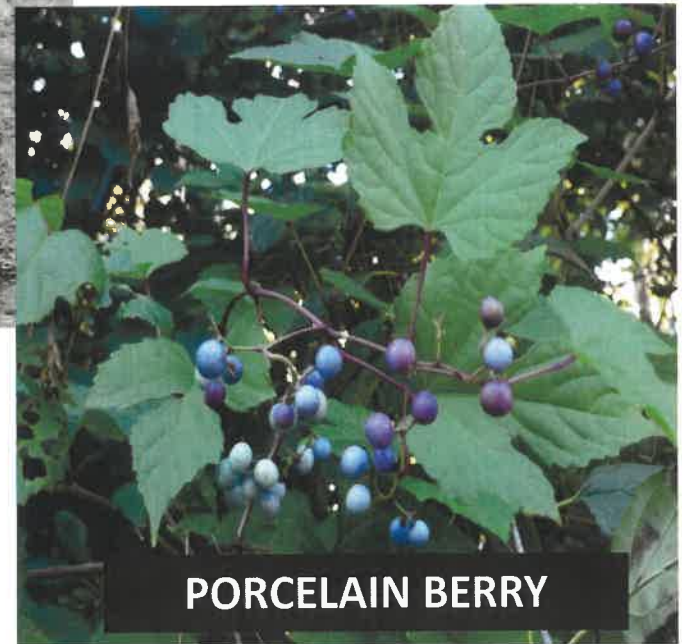

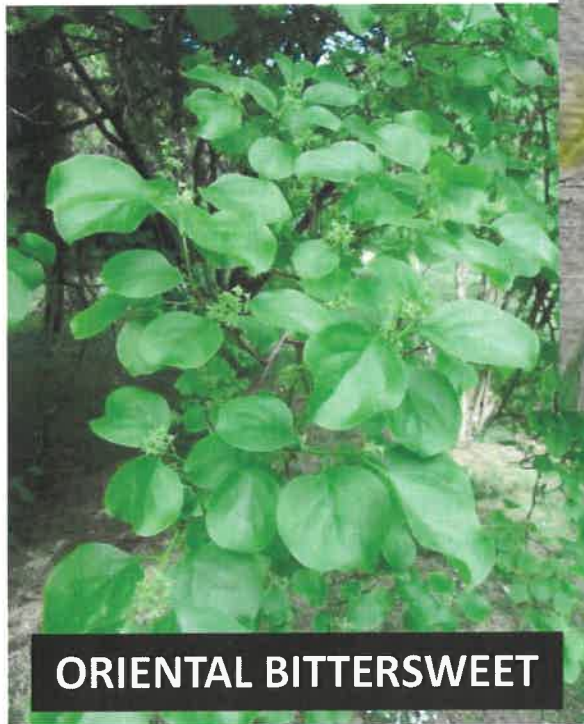

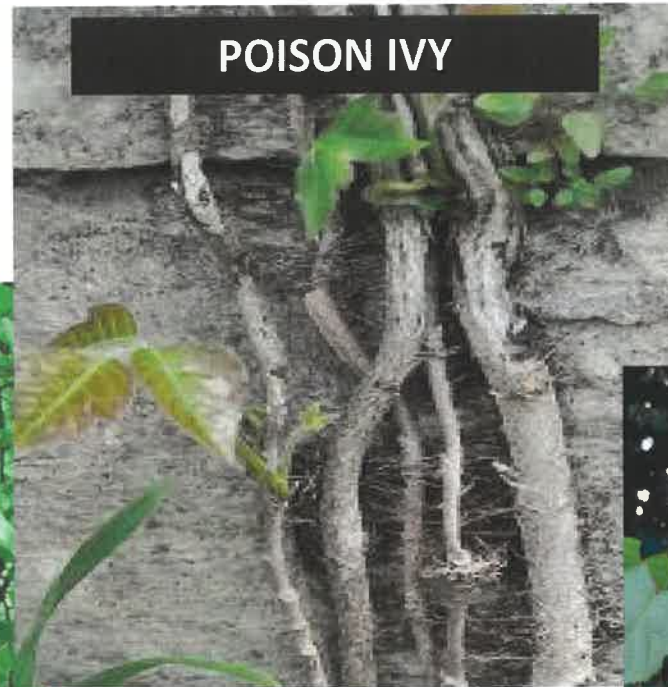

Vine Removal and Treatment Program

Between 15,000 and 20,000 customers lose power each year on Long Island, due to vines entangled between electric wires.

Some vines can grow as much as ten to twenty feet per year. This rapid growth allows them to quickly climb poles and cause repeated outages, sometimes within just a year or two after being cut down.

Some of our most troublesome vines are Bittersweet, Poison Ivy, Porcelain Berry, and others.

To help reduce these recurrent outages, PSEG Long Island will cut and treat vines which are climbing utility poles to prevent re-growth.

Weed killers are applied directly to the stump of the cut vine, eliminating the need for spraying which could damage desirable plants nearby.

**PSEG** LONG ISLAND

Vine Removal and Treatment Program

Our technician cuts the stem of a climbing bittersweet vine, which will kill the foliage above the cut.

**PSEG** LONG  
ISLAND

Vine Removal and Treatment Program

Another cut is made near the ground, and the cut stump is sprayed to prevent re-growth.

GROUP 4 HERBICIDE

# Pathfinder® II

ACCEPTED  
VIA NOTIFICATION  
LABEL NOT REVIEWED

March 9, 2022

New York State Department  
of Environmental Conservation  
Division of Materials Management  
Pesticide Product Registration

Cut stumps are treated with Pathfinder II, which is approved by NY State for this purpose

## HERBICIDE

For the control of woody plants in forests, in rangeland and permanent pastures, and in non-crop areas including industrial manufacturing and storage sites, rights-of-way such as electrical power lines, communication lines, pipelines, road sides and railroads, and commercial and residential landscapes, fence rows, non-irrigation ditch banks and around farm buildings. Use on these sites may include application to grazed areas as well as establishment and maintenance of wildlife openings.

understand the label, find someone to explain it to you in detail.)

### Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. Refer to label booklet under "Agricultural Use Requirements" in the Directions for Use section for information about this standard.

Basal Bark

Cut Stump

Refer to inside of label booklet for additional precautionary information including directions for use.

**Notice:** Read the entire label. Use only according to label directions. Before using this product, read **Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies** at end of label booklet. If terms are unacceptable, return at once unopened.
